

NA3338 RAPID COMBI

**WITH THIS SOFT-SERVE AND MILKSHAKE MACHINE
THERE'S NO END TO THE POSSIBILITIES!**

This Nissei combination soft-serve and thick milkshake machine is suitable for almost any location. Its handoperated, separate taps make it highly easy to use. And if you select the optional Twister paddle, you can vary your product offerings almost endlessly to keep your customers coming back for more.

With its double-walled, 2.5 liter freezer cylinder, the machine delivers excellent performance even at peak times. It allows you to treat your customers to delicious soft-serve ice cream or a creamy, refreshing thick milkshake with a very high overrun, ensuring you the maximum return on your soft-serve and thick milkshake products.

Nissei soft serve machines are known for their high capacity, compact size, quiet operation, low maintenance costs, long lifespan and ease of use. All machines come equipped with an energy-saving pasteurization system and require disassembly just once every 6 weeks.
