

NA9328 PROF COMBI T

THE SMALLEST COMBI MACHINE EVER!!

The Nissei NA 9328 soft-serve and thick milkshake machine is unique in its class. A smaller and more energy-efficient model has never been developed.

Ideal for anyone working in a tight space, this Nissei combi machine can be placed on any countertop or table, with the syrup tanks standing up to 1.5 meters away from the machine.

This combi machine uses very little energy and offers a lot of possibilities. Not only can you surprise your guests with creamy, delicious soft-serve ice cream, you can tap 4 different flavours of thick milkshake straight from the machine. This Nissei machine also ensures high overrun in your products, which means a high return for you!

Nissei soft serve machines are known for their capacity, compact size, quiet operation, low maintenance costs, long lifespan and ease of use. All machines come equipped with an energy-saving pasteurization system and require disassembly just once every 6 weeks.
